

**Forestry 205
Dendrology**

| | | |
|-----------|-----------|-------------------|
| Section 1 | Wednesday | 1-5: 15 (FLB 109) |
| Section 2 | Thursday | 1-5: 15 (FLB 109) |

Instructor: Dr. Jim Dyer (LH 13)
Ph. – 257-4457
E-mail: jdyer@latech.edu

Text: None Required – The instructor will provide you with supplemental readings/study guides/ web sites if you would like to use them. Also, handouts/illustrations will be given to you as the course progresses.

Objectives: 1. To learn basic botanical nomenclature and plant structures such as flowers, fruits, and internal and external morphology.
2. To learn the common and scientific names of approximately 100 Species of native understory, midstory, and overstory plants.

Evaluation/Grading: There will be daily field quizzes on species previously covered. These will account for 90% of your grade. In addition there will be a written exam that will cover the lecture material. This will account for 10% of your grade. The grading scale will be on a 10 point basis.

Note: Lab absences will not be made up unless the instructor is notified **PRIOR** to the lab. If you are unable to attend the lab for your section, I will allow you to attend the other section's lab. Again, please let me know in advance if you are unable to attend your section so that I can make arrangements for you in the other section.
