Weekly Moodle Tip:

Deleting quiz attempts for one or multiple students is easy in Moodle and consists of only a few steps.
1. On your course page, click on the quiz name.
2. Now, near the top of your page, you should see a series of tabs: Info, Results, review, Edit. Click the “Results” tab.
3. To the left of each person’s name and picture, there should be a check box. Check the box or boxes that correspond with the student(s) attempt(s) you would like to delete.
4. After all the attempts you would like to delete have been selected, click on the button entitled, “Delete selected attempts”.
5. A window should appear to confirm that you would like to delete the attempt. Click ok.
