Weekly Moodle Tip:

In the Moodle Gradebook, you can choose to have all of your students on one page. To do this, follow these few simple steps:

1. Click on “Grades” to enter the gradebook.
2. On the “Choose an action” menu, select “Grader Report” under “My preferences”.
(Note: Do NOT select the first Grader report, be sure its the one under “My preferences” as seen in the figure to the left.)
3. Now, in the section entitled, “General”, you should see an option titled, “Students per page”. Enter the number of students enrolled in your course here.
4. Click Save changes.

For further assistance with Moodle, please contact the CIT.
