Weekly Moodle Tip:

In the Grader Report, inputting student grades is easier when using the “gradebook scroll bar”. This scroll bar keeps the student names static as you scroll through the gradebook columns.

To use this scroll bar, click on “Grades” in the Administration panel for your course. Next, make sure you are in the Grader Report view. If not, click the “Choose an action” menu on the upper left and select “Grader Report”. Below your grades (near the bottom of the screen) you should see a blue scroll bar. This is the scroll bar you use to scroll through your grade item columns.

(Note: the scroll bar only shows once you have more grade item columns than can be shown at once.)

For additional help, please contact the CIT.
