Mission
As part of Louisiana Tech University, the College of Liberal Arts is committed to the University’s dedication “to quality in teaching, in research and creative activity, and in public service.” First and foremost, the College of Liberal Arts seeks to support the mission of Louisiana Tech University in maintaining “a faculty committed to teaching and advising, a student-oriented faculty dedicated to preparing students to achieve their goals in a rapidly changing economic and civic environment . . . a faculty that will through both theoretical and applied research and creative activities, contribute to the development of new knowledge, new art, and new technology.”

Goals
Through their studies, students in the College of Liberal Arts become acquainted with many areas of intellectual interest and acquire a thorough knowledge of a specific field through the courses in their major field. This liberal arts education prepares students for business and professional careers as well as providing the basis for a richer and better life. To bring about these ends, The College of Liberal Arts serves both its own majors and the University community in the following ways:

- it provides traditional humanities and arts courses for students desiring minor fields of study, for non-traditional students who may or may not seek a degree, and for any other student interested in learning about various areas of liberal arts;
- it provides pre-professional training for those students who intend to study law and speech-language pathology or audiology;
- it assists in the preparation of prospective teachers who desire to major in such subjects as art, English, foreign languages, music, social science, and speech;
- it provides specialized training for vocations in such fields as architecture, aviation, graphic design, interior design, journalism, music, and theatre; and
- it provides graduate training leading toward various graduate degrees.

- School of Art (See the Director of the School of Art)
- School of the Performing Arts (Music; see the Director of the School of the Performing Arts)
- Department of Speech (Theatre Concentration; see the Director of the School of the Performing Arts)

Transfer Credit

The College of Liberal Arts follows the transfer admissions criteria listed earlier in the University Catalog. Students desiring to transfer to Louisiana Tech University with fewer than 24 semester hours of college-level course work must meet the same requirements as an entering freshman and be eligible to re-enter the institution from which he/she is transferring. Students who have completed 24 or more semester hours of college-level course work must have a minimum overall grade point average of 2.0 (on a 4.0 scale). Students transferring must submit an application and a complete, official transcript from each college attended, whether credit was earned or transferrable. Students should check with their academic advisor or unit head about the transfer of specific courses into the student’s major curriculum.

Graduation

Candidates for graduation in the College of Liberal Arts must have completed an approved curriculum and must have an average grade of C or better on all course credits earned. For those curricula specifying such, the minor subject must be chosen with the approval of the student's advisor before the first quarter of the junior year. Twenty-one semester hours of credit are required for a minor.

Physical education requirements are to be met through physical education activity courses, through equivalent participation in the United States Air Force Reserve Officers Training Corps program, or through military service. Not more than 4 semester hours of physical education activity courses will be counted toward degree requirements.

**School of Architecture**

**School of Architecture Mission Statement**

Recognizing that architecture is one of the basic or root arts in human culture, the primary mission of the School of Architecture is to provide an accredited professional degree program in architecture that is reflective of the architect’s role as the primary shaper and steward of the built environment throughout the life cycle of its buildings and communities. Additionally, the School of Architecture acknowledges that the conscientious making of the built environment is a collaborative endeavor, and consequently its secondary mission is to provide accredited degree programs in allied fields of study that share responsibility for influencing and effecting the nature and quality of the built environment.

The School of Architecture offers the following degrees:

- Bachelor of Science in Architectural Studies (BS): undergraduate pre-professional degree.
- Master of Architecture (March): graduate professional degree.

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

- Bachelor of Interior Design: (BID)

**Architecture Program Mission Statement**

To provide a comprehensive and uncompromising, balanced, and demanding education in the art (poetic expression), craft (technical processes, and practice (professional services) of ethical building through the polytechnic tradition of “hands-on” experiences and empirical learning that prepares an individual to be an architect in the fullest sense of the word.

School of Art

School of Art Objectives
The objectives of the School of Art are to prepare students as professional artists and to develop enlightened individuals in the production of art culminating in the Bachelor of Fine Arts and/or Master of Fine Arts degrees. To support these objectives we provide the student with a series of guided experiences in the history of art, the use of materials, the development of a personal aesthetic, and the encouragement of artistic mastery. These objectives should provide our students with the attitudes and skills needed to become mature, self-motivated artists.

Bachelor of Fine Arts Objectives
This program is designed to develop a deep and lasting appreciation for the visual arts among the students and to train professional artists in their respective fields of study. The candidate for a degree must complete the prescribed General Education Requirements (GER) courses and pass the remaining art courses with no grade below a C.
Degree Offerings in the School of Art
- The Bachelor of Fine Arts (BFA) is offered in communication design, photography, and studio (ceramics, drawing, painting, printmaking, and sculpture concentrations).

Prerequisites
Courses beyond the basic design, drawing, and art history survey courses have prerequisites, as the knowledge gained in each successive course builds on the previous experience. Students who qualify for Advanced Placement Credit will be given credit for art elective courses; however, all students must enroll in the basic design and drawing courses because of the importance of learning the content of these introductory courses.

Senior Exhibit
A senior exhibit is required of all art majors and will be a graded component of their final major studio course. A passing grade in this course is contingent upon a C or better grade for the exhibit. The area head assigns this grade. The following courses (by areas) will serve as the final major studio/exhibit course:
- Communication Design: Art 475
- Photography: Art 474
- Studio:
  - 2-D: Art 415
  - 3-D: Art 415

Art - Communication Design Curriculum (BFA)
Students entering this field of study will pursue courses in the core curriculum during their freshman year. These include drawing, designing, art history, rendering, and electives of the student's choice as well as the first graphic design class, Art 160. The sophomore, junior, and senior years are spent specializing in the communication design area. Courses include typography, layout, production techniques, illustration, advertising campaign, and computer graphics. Much of the senior year is directed toward the preparation of a portfolio which will provide evidence to a potential employer of the graduate's talents and expertise in the communication design field. Upon graduation students are qualified to perform professionally in a wide variety of graphic-related industries: print advertising, newspaper, magazine and book publishing, specialized studios, among other related activities.

Note: All students enrolled in Art 260 must have Macintosh laptops. Specific descriptions of the laptop are available on our Web site www.art.latech.edu.

Art-Photography Curriculum (BFA)
In the Photography program, students are involved in a common curriculum with other art majors. The emphasis is on the use of photographic materials as a means of self-expression and discovery. Technical skill is taught. However, the primary intent of the program is to examine the impact photography has on the individual, the community, and society as a whole. Through lectures, demonstrations, practical lab work, and problem solving, students develop into well-rounded artists and craftsmen. The equipment and facilities provided by the program allow the student an opportunity to master the various tools and techniques of photography.

Art-Studio Curriculum (BFA)
The Studio program provides areas of concentration in ceramics, drawing, painting, printmaking, and sculpture. During their freshman and sophomore years, Studio majors are involved in a common curriculum. The junior and senior years consist of a flexible curriculum that is primarily structured around studio assignments and individual criticism coupled with group lectures and seminars. The emphasis is on the use of materials...
as a means of self-expression. Technique is studied as an important aspect of art training. However, in a deeper sense, the intent of the program is to examine the reasons art is made and how art impacts the lives of those who make it as well as those who view it. Learning methods of solving visual problems, students develop into well-rounded artists and craftsmen. The equipment provided by the program allows students an opportunity to master the various tools and techniques available to the artist.

### School of Literature and Language

#### Department of English

**Objectives and Career Opportunities**

A student majoring in English studies literary history, literary forms and theory, and the wide variety of texts from English and American literature, as well as masterpieces from other literatures in English translation. One of the most intellectually rewarding of studies, an English curriculum will develop critical thinking skills, critical reading abilities and writing skills, and research skills which will prepare the graduate for success in a variety of fields. A degree in English is an excellent pre-professional major for fields such as law and medicine and provides the necessary platform for the MA and PhD in English for students who wish to enter secondary or university teaching. It can lead to careers in publishing, editing, advertising, public relations, or government service. Students choosing the technical writing concentration will find rewarding career opportunities in business, industry, and the professions. With many electives in the curriculum, English is one of the most flexible and useful of degrees.

The Department of Foreign Languages offers the Bachelor of Arts degree with majors in:

- French
- Spanish

Credit/Placement Examination

Students may earn credit for beginning and intermediate foreign language courses (100 and 200 level) by passing credit/placement examinations. Students with three or more years of high school credit and native speakers should consult the department office before registration.

The foreign language credit/placement examinations are scheduled to be given each quarter on the two days preceding the first day of class. The exact time, place, and date of the examinations are listed on the calendar page of the quarterly class schedules. Students register for a credit/placement exam by enrolling in the E01 section of the appropriate 100 or 200 level course. Students may arrange for a credit exam by special appointment during the quarter but at an additional cost.

Students who have already completed credits in a foreign language must not enroll in an elementary class in that language without first taking the appropriate credit/placement examination. Neither the credit/placement exams for the following courses, nor the courses themselves, are open to native speakers: French (FREN) or Spanish (SPAN) 101, 102, 201, 202, 301, 302. (Effective with students newly admitted or readmitted to Louisiana Tech University in the Fall Quarter 2004 and after.)

Foreign Language Requirement

All students are advised to complete a year's sequence of their foreign language courses without unnecessary interval between courses. A language requirement must be completed in the same language.

Students who have completed two years or more of high school French or Spanish with a "C" average or higher may not enroll in 101-level courses, but must begin their language study at the 102-level or place into a higher level course by taking the appropriate credit/placement exam. All students who complete French or Spanish 102 or who earn credit for French or Spanish 102 by exam will also automatically earn credit for French or Spanish 101. (Effective with students newly admitted or readmitted to Louisiana Tech University in the Fall Quarter 2004 and after.)

Objective
In the established tradition of liberal arts education, the Department of History provides students with personal cultural enrichment, while preparing them for employment in fields in which historical knowledge, habits of mind, and skills (such as research, analysis, and communication) are valued, and/or for further study leading to careers in teaching, the law, the ministry, government service, and many others.

The Department of History offers the Bachelor of Arts degree with a major in History

Chair in History
The Garnie W. McGinty Chair of History, endowed in 1977 by Dr. G. W. McGinty, former head of the History Department, is currently occupied by a member of the department. The McGinty Trust Fund also enables the department to publish scholarly historical works and to award scholarships to qualified students. The department also sponsors the American Foreign Policy Center.

Requirements for a Major
Thirty semester hours in history, as specified in the curriculum below, constitute a major in the Department of History. Every history major must have a minor, normally 21 hours in a related field, chosen in consultation with his or her advisor and, if necessary, the head of the department in which the student wishes to minor. Every major will consult with his or her advisor during each registration period and throughout the
term as need arises. This program leads to the degree of Bachelor of Arts.

The specific department objectives (as set forth in the Louisiana Tech University Department of Music Handbook and curriculum guides) are designed to meet requirements as established by the Louisiana Board of Regents. The basic objectives of the Department of Music are:

- To assist students in becoming competent, qualified musicians by providing quality instruction and programs in music.
- To provide a variety of experiences which will prepare prospective musicians/music teachers to assume their professional roles in the fields of music performance and/or music education.
- To provide educational experiences which will develop the individual’s knowledge in both breadth and depth.
- To provide consultation service, workshops, seminars, and extension programs for teachers, administrators, school boards, and other community members interested in the development of music and music education through lecture/demonstrations, clinics, recital programs, and adjudicators for district and state music festivals.
- To evaluate on a continuing basis the curricula, course offerings and services of the Department of Music in light of new knowledge, career requirements, and opportunities for college graduates.

In addition to the completion of the requirements of the degrees, students must complete the University’s general education requirements (GER).

**Department of Social Sciences**

**Mission**
As part of a liberal arts philosophy, the Department of Social Sciences at Louisiana Tech offers an education which provides a firm foundation for professional work or graduate school for majors in geography, sociology, political science, and pre-law. The department affords students opportunities to sample knowledge from all fields; to develop writing, problem-solving, and interpersonal skills sought by employers; and to acquire the sort of liberal arts background which enriches a lifetime of political, social, cultural, and leisure-time activities.

**Objectives**
- to obtain the information and skills that are necessary prerequisites for rewarding and satisfying professional employment
- to acquire the substantive knowledge that allows a university graduate to be admitted to the company of educated men and women
- to learn to think, speak, and write clearly and effectively
- to achieve an appreciation for the ways in which we gain our understanding of other societies and to enable students to view themselves in other, wider contexts
- to gain proficiency in explaining and defending one’s views
- to relate a liberal arts education to career and life decisions in a way that allows the individual to make discriminating moral choices

**The Department of Social Sciences offers the Bachelor of Arts degree with majors in:**
- Geography
- Political Science
- Sociology

**Requirements for a Major:**
Thirty semester hours of prescribed courses in geography, political science, or sociology constitute a major in those subjects in the Department of Social Sciences. Minor requirements are determined by the department in which it is offered. Every department major will consult with his/her advisor during each registration period and throughout the term as necessary.

The degree of Bachelor of Arts is conferred upon completion of any of the curricula: geography, political science, and sociology.

Department of Speech

Objectives
The major in Speech (Communication Studies concentration) is designed to allow the student to study communication that includes all forms of interpersonal, small group, organizational, public, and mass communication. The Speech curriculum has 33 semester hours of core courses that are concentrated in contemporary theory, research, and practical application of communication principles. The undergraduate major focuses on communication in interpersonal and organizational contexts. Additionally, the curriculum offers a variety of elective hours for course work in one of four tracks of emphasis: general, corporate communication, public relations, and law and related professions. While the degree can lead directly to careers in public relations, corporate consulting and advertising, it also serves as a rigorous discipline enabling students to pursue graduate work in a variety of fields.

The major in Pre-Professional Speech-Language Pathology is designed to prepare a student for graduate study in speech-language pathology or audiology. The undergraduate preparation includes a broad educational experience in the liberal arts and sciences and a strong foundation in addition to basic course work in normal and disordered speech, language, and hearing. The undergraduate/pre-professional degree is the first degree that leads to graduate study for speech-language pathologists and audiologists. The master’s degree is considered to be the entry-level degree for most professional settings for speech-language pathologists.

The Department of Speech offers the following degrees:
- BA in Speech (with concentrations in Communication Studies or Theatre)
- BA in Pre-Professional Speech-Language Pathology

The BA in Speech, Language, and Hearing Therapy is also offered through the College of Education (See College of Education for details).

Requirements for a Major
A major in Speech consists of 33 hours which may be earned by concentrating in speech communication, theatre, or pre-professional speech-language pathology. The student concentrating in speech communication/interpersonal and organizational communication is expected to take the following courses: Speech 110/377, 325, 430, 431, 433, 440, 455, 466, plus 9 additional hours in speech. In addition, 21 hours of specialized study in one of three tracks (corporate communication, public relations, or law and related professions) will be approved by the student’s advisor. Students interested in theatre should consult the Director of the School of the Performing Arts regarding the appropriate courses for a major concentration in Theatre. Please refer to the School of the Performing Arts section of this Catalog for more information.

The degree of Bachelor of Arts is awarded upon completion of either the speech curriculum or pre-professional speech-language pathology curriculum.
