The College of Liberal Arts Plan received a majority approval in the May 10, 2004, poll vote of the Strategic Planning Committee.

The following recommendations were recorded in this poll vote:

- Clearly stated goals in each area which are quantitative.
- Tie goals to University Strategic Plan.
- Needs goals, objectives, and strategies tied to (supporting) University goals.

The following dissenting comments were recorded in this poll vote:

- Graduate School does not offer Summer Research Grants (they come from Research Office, now separated).
- The proposed plan focuses on routine operations and current states; it would be significantly improved by addition of strategic goals, with detailed tasks and tactics that could help achieve those goals. Then, measurable outcomes and assignment of responsibility would complete the plan.
