MINI-EXHIBITION FEATURING VENDORS OF TRENCHLESS PRODUCTS AND SERVICES

THINGS SAID ABOUT THE FORUMS:

"Thanks again for the great seminar you presented here last week. The content and the organization of the seminar were much appreciated." Eric Wharton, City of Bloomington, MN

"We take an active role in the forum for our area to ensure that the presentations are pertinent to our areas of interest. The TTC works hard to ensure that these forums are quality events chock full of the types of presentations we are looking for. The presentations are well-done and "commercial-free", and consist of technical information, case studies, and the like. And we always have the discussion session where the municipal participants can discuss anything they want to." James M. Gross II, Columbus Public Utilities, OH
