Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students entering the program with a Master's degree may request to transfer courses they have already taken. A maximum of 27 credit hours is allowed by the program. Faculty will consider these requests once a student has been officially admitted to the program. Requests will not be processed for applicants. University policy prohibits the transfer of any credits that have already been applied to another degree. The transfer of credits does not typically shorten a student's time to completion. On average, the program at Louisiana Tech University, takes all students a minimum of 5 years to complete in its entirety.
