UNDERGRADUATE PROGRAMS

COLLEGE OF APPLIED & NATURAL SCIENCES

Agricultural Business
Animal Science
Biology
Environmental Science
Forestry
Geographic Information Science
Health Informatics & Information Management
Medical Laboratory Science
Nursing
Nutrition and Dietetics
Pre-Professional Speech-Language Pathology

COLLEGE OF BUSINESS

Accounting
Business Administration
Business Economics
Computer Information Systems
Finance
Management
Marketing
Sustainable Supply Chain Management

COLLEGE OF EDUCATION AND HUMAN SCIENCES

Education - Early Childhood
Education - Elementary
Education - Secondary
Education - Elementary & Special ed
Exercise and Health Promotion
Fashion Merchandising and Retail Studies
Human Development and Family Science
Kinesiology and Health Science
Psychology

COLLEGE OF LIBERAL ARTS

Architectural Studies
Aviation Management
Communication
English
Graphic Design
History
Interdisciplinary Studies
Interior Design
Modern Languages
Music
Political Science
Professional Aviation
Sociology
Studio Art

COLLEGE OF ENGINEERING & SCIENCE

Biomedical Engineering
Chemical Engineering
Chemistry
Civil Engineering
Computer Science
Construction Engineering Technology
Cyber Engineering
Electrical Engineering
Industrial Engineering
Instrumentation and Control Systems
Engineering Technology
Mathematics & Statistics
Mechanical Engineering
Physics

GRADUATE PROGRAMS

Accountancy (MAcc)
Applied Physics (MS)
Architecture (MArch)
Art (MFA)
Audiology (AuD)
Biology (MS)
Biomedical Engineering (MD/PhD)
Business Administration (PhD)
Business Administration (MBA)
Communication Studies (MA)
Computational Analysis and Modeling (PhD)
Computer Science (MScS)
Counseling & Guidance (MACG)
Counseling Psychology (PhD)
Curriculum and Instruction (MEd)
Early Childhood Education (Grades PK-3) (MAT)
Educational Leadership (EdD)
Educational Leadership (MEd)
Elementary Education (Grades 1-5), (MAT)
Engineering (MSE)
Engineering (PhD)

Engineering and Technology Management (DETM)
Engineering and Technology Management (MSEM)
English (MA)
Health Informatics (MHI)
History (MA)
Industrial/Organizational Psychology (MA)
Industrial/Organizational Psychology (PhD)
Kinesiology (MS)
Mathematics (MS)
Middle School Education (Grades 4-8) (MAT)
Molecular Sciences and Nanotechnology (MSNT)
Molecular Sciences and Nanotechnology (PhD)
Nutrition and Dietetics (MS)
Secondary Education (6-12) (MAT)
Special Education - Visually Impaired (MAT)
Speech-Pathology (MA)

LOUISIANA TECH UNIVERSITY INTERNATIONAL STUDENTS

CYBER ENGINEERING

Roughly 1,300 unique fields have an urgent need for cyber engineers. Louisiana Tech's Cyber Engineering Program is best described as the fusion of computer science and electrical engineering applied to the cyberspace domain. Cyber engineers engage in political and social issues present in cyberspace, and need to have an understanding of associated security concerns, social and political impacts, and ethical consequences.

Welcome to Louisiana Tech University

LOUISIANA'S COLLEGE TOWN

Ruston is a safe, tight-knit community. Students appreciate the intimate setting of a small town but the fun and excitement of a bigger city. Situated a short driving distance between two larger cities, students have easy access to big-city amenities and fun weekend activities.

Hands-On Learning

LIVING WITH THE LAB

Our first-year engineering program boasts experiential learning through student ownership of the lab. Students are provided with a robotics kit, tools, software, and supplies to complete design projects. This expands the scope and complexity of projects that can be undertaken with large groups and fosters the development of knowledge, skills, and confidence that lead to innovation.

STUDENT MANAGED INVESTMENT FUND

This \$1 million fund is managed by undergraduate students in the College of Business who are responsible for all investment research, portfolio positions, and reporting. The state-of-the-art Trading Room functions as both a classroom and lab where students have exclusive access to the same software used on Wall Street.

LIVING WITH CYBER

The freshman computing curriculum utilizes a unique hardware platform the size of a credit card to provide students hands-on projects in learning the intricacies of computing. Students look at problems, design algorithms, and propose solutions. This curriculum provides students with an overview of computing and helps prepare them for career opportunities in many computing fields.

INTERNATIONAL UNDERGRADUATES

☐ Complete Undergraduate Application

Submit

☐ Bank Statement

☐ Original TOEFL requirement is 79, or 71 on iBT, or IELTS score of 6.5, or Duolingo Score of 100.
(If your high school was taught in English, these tests are optional.)

☐ Official academic records and transcripts (High School GPA of 2.5)

☐ SAT or ACT scores. Alternate testing can be arranged.

All supporting documents must include certified English translation.

Email ISO@LATech.edu with questions

INTERNATIONAL GRADUATES

☐ Complete online application at experience.LATech.edu/apply (\$40 fee)

Submit

☐ Four-year bachelor's degree from a regionally accredited college/university

☐ Official transcripts from all institutions attended (Unofficial transcripts for uploading the application). Minimum of 2.25 GPA.

☐ Most recent or highest official GRE/ GMAT test score (requirements vary by program; score must be no older than 5 years old)

☐ Most recent or highest official TOEFL (minimum 80 iBT), IELTS (minimum 6.5 across 4 modules), Duolingo (minimum 105), or PTE (minimum 58) test scores (score cannot be older than 2 years old). unless your country is exempt from Proof of English Proficiency; check at LATech.edu/grad-requirements

☐ Letter of recommendation, resume, or career goal statement (may be required by the program)

All supporting documents must include certified English translation.
