

# A Plan for Louisiana Tech University

A hand with the index finger pointing upwards is visible on the right side of the image. The background is a solid red color with a faint, blurred pattern of many small human figures, suggesting a large crowd or a community. The text is centered and reads:

**PEOPLE.  
KNOWLEDGE.  
CULTURE.**

Tech Family,

I am pleased to introduce Tech 2030, our University's strategic plan for the next 10 years.

Students, faculty, and staff worked together to generate this new plan – a plan created to usher our University into the most innovative time in our history.

The Plan for Louisiana Tech is distinctively different. We will focus on developing leaders and learners, cultivating cooperation and innovation, and advancing our sustainability initiatives and physical facilities.

Each of us will have a part to play in executing this plan. I encourage you to review it and be ready to commit to your part. Thank you for your help.

Forever Loyal,

**Vision:** Louisiana Tech University is recognized as a pre-eminent public research university with an unparalleled learning experience.

**1**

## **Cultivate learners, leaders, and mentors for academic and professional excellence**

We hold as our top priority the development of human potential through supporting the learning goals of our students and the professional goals of our faculty and staff.

### **Giving Priorities**

- First-generation Scholarships
- Innovative Teaching and Learning Grants
- Athletic Academic Center Facility
- Endowed Chairs
- Presidential Professorships
- Retention Scholarships

## 2

## Create scholarship, and advance research and innovation

Research, scholarship, and academics at Louisiana Tech engage faculty, students, and external partners in collaborative and entrepreneurial efforts to generate and disseminate knowledge and foster innovation that make a difference in our region and around the world.

### Giving Priorities

- Graduate Research Assistantships and Fellowships
- Research Seed Grants
- Entrepreneurship Grants
- Tech Pointe II

# 3

## Advance an integrated environment enabling an unparalleled learning experience

Louisiana Tech is a resilient campus community offering facilities and systems in physical, administrative, social, and cultural environments that are conducive to all aspects of learning and discovery and responsive to changing technologies, educational paradigms, and the populations we employ and serve.

### Giving Priorities

- Academic Facility Upgrades
- Student Engagement Centers
- Campus Planning and Beautification
- Book or Laptop Scholarships
